NON-DISCRIMINATION POLICY

No person is excluded from services based on age, race, national origin, gender, religion, sexual orientation, education or physical ability. You can expect to be treated with complete respect when you ask for help for yourself and/or your family.

Daymark® Recovery Services, Inc. – What's in a Name?

A day mark symbolizes the often bright and, more importantly, recognizable markings painted on lighthouses up and down the Atlantic and Pacific seaboards. As history states, sailors relied on these welcoming day marks during daylight hours as a necessary tool to orient themselves to their exact location while traveling for sometimes days, weeks, and even months. Waking in the early morning to the sight of a bright day mark in the distance reassured many they were often on the right track on their voyage.

Daymark® Recovery Services, Inc., offers guidance, light, and hope to citizens of all ages who may need services in the areas of mental health, substance abuse and developmental disabilities. By seeking care from Daymark®, clients are treated by medical and professional staff who are continuously undergoing extensive training in best practice guidelines and evidence-based treatments for mental health, substance abuse and developmental disabilities.

Daymark® strives through current best practices and effective, research-based treatment programs to assist all citizens working towards achieving optimum health and recovery. The Daymark® goal is to enable each citizen and their support system the greatest opportunity for recovery, independence and life enhancement.

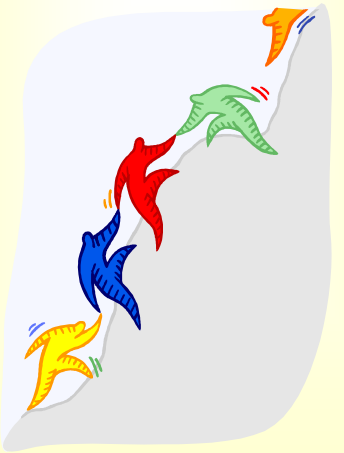
MOBILE CRISIS MANAGEMENT SERVICES



www.daymarkrecovery.org

What is Mobile Crisis Management?

Mobile Crisis Management is a crisis intervention service that is available at all times, 24/7/365. It includes all the help, services, and treatments needed to respond to and stabilize a mental health, developmental disability and/or substance abuse crisis situation.

The service consists of:

- An immediate telephone response to assess the problem and determine the risk, mental condition, medical stability, and proper approach needed.
- Face-to face assessment and treatment in the home or other safe location to decrease symptoms, reduce the risk of harm, and/or ensure the safe transfer of a person to the correct crisis stabilization and/or detoxification services.
- Developing a plan to keep another crisis from happening
- Follow up interventions to ensure the individual is engaging in treatment thus decreasing the likelihood of unnecessary hospitalization or incarceration

.

The Mobile Crisis Management Team is available to respond when a youth or adult...

- appears to be experiencing a mental disorder, developmental disability, and/or substance abuse problem and
- is having a severe, immediate, non-medical crisis and
- doesn't have the resources or the skills with which to cope with the crisis and/or
- Shows a serious lack of judgment, and lacks impulse control, and/or trouble understanding or putting together thoughts or
- Is intoxicated or in withdrawal, needs substance abuse treatment, and cant access services without help.
